

## Europeana Libraries' survey

The LIBER-EBLIDA Workshop gives an opportunity to exchange ideas and to share information over digitisation process in Europe.

During the Workshop, the Europeana Libraries Project will talk about the development of a portal for humanities & social science researchers which incorporates digitised content from national and research libraries.

One element of the presentation will be an analysis of the services that research librarians believe must be part of such a research portal.

You are most welcome to fill in the survey before the Conference at <http://www.surveymonkey.com/s/DXJ6JKX>,

Thank you for your contribution.
